

WEB Site	https://www.openpricer.com/
Address	15 rue Taitbout 75009 Paris France
Activities	Open Pricer develops a platform which is used by major international logistics groups (parcel networks, road freight, e-commerce delivery). It is a key contributor to their financial performance through dynamic pricing.
Presentation of the company	<p>We are an innovative European software company with several offices around the world. We are quickly expanding internationally to support several thousand users in 30+ countries.</p> <p>Our technology is based on real-time analysis and modeling of large amounts of operational, financial and sales data. Users access our platform either via our Web App or through APIs from other applications (CRM, Customer Portals, etc.).</p>
